

DIRECT FIRED HEATERS

These thermostatically controlled heaters are ideal for tent events or construction applications as they create a comfortable environment and are quiet, efficient, as well as simple to set-up. Flexible ducting options allow for heat to be directed to specific areas.

MODEL	HC-170	HC-350
FUEL TYPE	DUAL FUEL	DUAL FUEL
BTU/HR	170,000	330,000
CFM	1,200	2,600
POWER REQUIREMENTS	115V / 15AMP	115V / 15AMP
FUEL CONSUMPTION	1.88 GAL/HR (PROPANE) 175 CFH (NAT. GAS)	3.6 GAL/HR (PROPANE) 330 CFH (NAT. GAS)
IGNITION TPE	DIRECT SPARK	DIRECT SPARK
THERMOSTAT	25' CORD FOR REMOTE LOCATION	25' CORD FOR REMOTE LOCATION
L x W x H	38" x 25" x 33"	50" x 33" x 42"
WEIGHT	165 LBS	350 LBS
